You think water moves fast? ~~You should see ice.~~<sup>anonymous</sup> It moves like it has a mind. Like it knows it killed the world once and got a taste for murder. ~~After the avalanche, it took us a week to climb out.~~ Now, I don't know exactly ~~when~~<sup>anonymous</sup> we turned on each other, but I know that seven of us survived the slide... and only five made it out. ~~Now we took an oath, that I'm breaking now.~~~~We said we'd say it was the snow that killed the other two, but it wasn't.~~<sup>anonymous</sup> Nature is lethal but it doesn't hold a candle to man. However unreal ~~it may seem,~~ we are connected, you and I. We're on the same curve, just on opposite ends. You don't get ~~sick~~, I do. That's also ~~clear~~<sup>anonymous</sup>.

The lysine contingency - it's intended to prevent the spread of the animals is case they ever got off the island. Dr. Wu inserted a gene ~~taht~~<sup>Green</sup> that makes a ~~single~~<sup>Green</sup> faulty enzyme in protein metabolism. The animals can't manufacture the amino acid lysine. Unless ~~they're~~<sup>Green</sup> ~~continually~~<sup>Green</sup> supplied with lysine by us, they'll slip into a coma and die. We're on the same curve, just on opposite ends. However unreal ~~it may seem,~~ we are connected, you and I. You don't get ~~sick~~, I do. That's also ~~clear~~<sup>Green</sup>.

Now that we know who you are, I know who I am. ~~I'm not a mistake!~~ It all makes sense! In a comic, you know how you can tell who the arch-villain's going to be? ~~He's the exact opposite of the hero. And most times they're friends, like you and me!~~<sup>Mister Orange</sup> I should've known way back when... You know why, David? They called me Mr Glass. However unreal ~~it may seem,~~ we are connected, you and I. We're on the same curve, just on opposite ends. You don't get ~~sick~~, I do. That's also ~~clear~~<sup>Mister Orange</sup>.

Your bones don't break, mine do. **That's clear.** Your cells react to bacteria and viruses differently than mine. *You don't get sick, I do.* That's also clear. *But for some reason, you and I react the exact same way to water.* We swallow it too fast, we choke. *We get some in our lungs, we drown.* However unreal ~~it may seem,~~ we are connected, you and I. We're on the same curve, just on opposite ends. You don't get sick, I do. That's also clear.
